

## UP55MD Analog A5 Color Printer

Pricing available upon request

### Overview

The New UP-55MD medical grade printer with its slim design offers a powerful new set of exclusive features never seen before on a medical printer. This device is packed with performance, speed, durability and convenience. Identifying with the changing needs of the medical marketplace, the UP-55MD printer includes a new Image Port feature that allows the end user to capture printed still images automatically every time a print is made. The images can be stored on a USB portable storage device such as the Sony MicroVault™. Images can be later imported to a laptop or PC for use in medical report generation, PowerPoint presentations, or patient records. High resolution, A5 size prints are created in approximately 20 seconds in high speed print mode. The UP-55MD is the ideal choice for printing in ultrasound or endoscopy applications, as well as other scientific applications.

### Highlights

- \* \*Newly designed high resolution thermal head delivers 379dpi with 16.7million colors
- \* \* Compact design makes intergration easier

- \* \* Image Port enables you to save your images Automatically every time you make a print
- \* \* UPC-55 Media Print pack provides 200 sheets of paper and two ribbon packages. The paper and ribbon are perfectly matched for easy replacement.
